

The QPOD™ Flooring System is designed to save the user time while providing an Eco-friendly alternative to polystyrene pods.

QPOD™ is for ALL slabs commercial and residential. A unique void former, it creates the perfect slab by ensuring all piece's interlock to the required height of the slab with inbuilt bar chairs to save installation time.

Danterr supplied QPOD™ Raft configurations are an engineered solution that business owners, engineers and trades can be proud of.

100% made of recycled and reprocessed plastics.

PRODUCT FEATURES

- Inbuilt spacers
- Unique interlocking system
- Pre-moulded holes for steel insertion
